

## 2-Channel CD Player with FM/DAB+, USB/Bluetooth SP-8CDA (SP-8CDR without RDS/DAB/DAB+)

### Description:

The SP-8CDA 2-Channel CD/USB/Bluetooth/FM/AM/RDS/DAB/DAB+ Media Player is an All-in-One CD play tuner device which accommodates different kinds of audio sources into one single device with two channels, 1U standard height with removable rack mounting brackets supplied:

Channel 1: CD-Player, USB/MP3-player, Bluetooth-receiver, Remote control, RS232, RCA and XLR output.

Channel 2: USB/MP3-player, Bluetooth-receiver and a tuner receiver of FM/AM/RDS/DAB/DAB+, Remote control, RS232, RCA and XLR output.

The radio channel provides a solution of Digital audio broadcasting (DAB+), the signals of which are transmitted inband, on-channel (IBOC). Several stations can be carried within the same frequency spectrum. And with outstanding features including improved sound quality, reduced fading and multipath effects, enhanced immunity to weather, noise, and other interference, and expansion of the listener base by increasing the number of stations that can broadcast within a given frequency band.

On the rear side, each channel has its own stereo outputs provided with RCA & XLR connection interface. Because of the two separate stereo outputs, the two channels can operate simultaneously.

The SP-8CDA/SP-8CDR are useful for applications such as multi-zone systems where multiple audio sources player for commercial audio system and Public Address sound system.

### Feature:

- Slim 1U Height 19" removable rack mount design 2-channel digital audio sources player
